

Project Management Capability Enhancement Program

Duration: 2023 – Ongoing

Description

LogiKal was engaged to develop and deliver an accredited Diploma of Project Management Program with customised content to align to the SCEE way of work.

LogiKal's Role

LogiKal applied our 6-Step Program Development Process to design a training program that would meet SCEE's specific training needs and desired outcomes.

- **Stage 1:** LogiKal conducted a series of requirements capture workshops with relevant internal subject matter experts (Scope, Cost, Time, Stakeholders, Procurement, Communications, Commercial and Project Controls) which provided the basis for customisation of these specific units.
- **Stage 2:** LogiKal completed our development and customisation process which included integrating client templates where appropriate into the assessable component of the program.
- **Stage 3:** LogiKal delivered a 5 day pilot Diploma program to a diverse group from several project teams.

Client: SCEE Electrical

Outcomes

LogiKal worked closely with the Learning and Development Manager and SME's to ensure the program was aligned to the SCEE way of delivering projects.

Following the successful program delivery, LogiKal will now support the team throughout the assessment process, as they work towards attaining their qualification.

In partnership with LogiKal Training, renowned for exceptional Project Management programs, we tailored the curriculum to our unique systems and processes. We eagerly anticipate applying this knowledge to our diverse projects, enabling participants to shine as outstanding Project Managers.
